ABOUT US

Our process for the Emerging Leaders program is to:

1. Identify you as an emerging leader;
2. Validate your leadership ability through the application process;
3. Equip you over an experience based journey, and then;
4. Launch you into a life of ministry with supports in place for you to succeed.

The focus throughout this process is to equip current emerging leaders in ministry to **'think'** movements, to **'live'** as disciple-makers, and **'be'** Kingdom minded. We are passionate about seeing generations of disciple-making movements in all church and community contexts be launched.

There are no limits as to what ministry areas you may be involved in as the program is individually tailored yet the process is structural.

The Emerging Leaders program helps you discover and identify your passions and calling, and to equip you to be successfully launched into ministry.

WHAT WE DO

Identify

Validate

Equip

Launch

THE EXPERIENCE

Mentoring & Coaching

Retreats

Training

Studies

This is a leadership opportunity for Emerging Leaders to establish their leadership now and impact their future ministry.
